

Leading Design

As a leading designer and manufacturer of orthopaedic medical devices, and with a state of the art cleanroom facility, Austofix is dedicated to continuous innovation, excellence and patient safety.

Concept -- Manufacture -- Marketing -- Product

Austofix can develop new devices from concept to manufacture, to market a fully commercialised product with regulatory approval for worldwide distribution. With a team of highly regarded research and development specialists, Austofix identifies emerging techniques and innovations within the field of orthopaedic trauma and develops world-class solutions.

Individual Product Development

By focussing on the specific needs of orthopaedic surgeons, Austofix products assist the surgeon performing accurately, efficiently and safely, leading to better health outcomes for the patient. Austofix's success can be measured through its excellent clinical results and positive surgeon feedback.
